To whom it may concern,

I am a recent graduate of the Tarleton State TMATE program. I have a bachelor's degree in Kinesiology and a minor social science from the University of North Texas. I began my career working for City of Fort Worth as a Recreational Assistant. I realized in this role how much I loved working with children. After leaving my position with the City of Fort Worth, I began working at Mansfield ISD as an Instructional Aide. In this position I have realize that working with student is my main passion in life and pursing a teacher career will help me fulfill this goal.

I am passionate about teaching students because when I was student I had teachers who were really dedicated and genuine cared about my learning. This really inspired me to become a teacher and help develop student knowledge for the future. I am looking for a position in which I will make a positive impact in children's lives. I want them to feel motivated about their education and know that I am there to help them reach their goals. I want to be able to teach them material without it being burdensome to them and have them look forward to learning.

I am excited about the opportunity to apply my education at your school district. For your consideration, I am including my résumé, which highlights relevant skills and experiences. Thank you for your time and consideration. I very much look forward to the opportunity to speak with you in person about my interest in the position.

Sincerely,

James Harding, BS
